

Technical Data Sheet

Product Description:

PS-0252 is a 2.0 mil polyester carrier double-coated with 1.0 mil of high performance acrylic PSA per side on a 55# C2S differential release liner.

Construction / Properties:

Property	Value
Backing	2.0 mil Polyester
Adhesive	1.0 mils Acrylic PSA Per Side
Liner	55# C2S Differential Release Liner
Adhesion to Steel (PSTC 101)	25 oz/in
Total Thickness	0.004"

General Information:

PS-0252 is a double coated high performance acrylic PSA that will bond well to most surfaces including corrugated, polyolefin films, glass, plastics, and metals. The 2.0 mil carrier film provides a rigid product, which makes hand application easier and more accurate. The 2.0 mil carrier film is also well suited for parts that must be robotically picked and placed into an assembly.

Features:

- Excellent Tack
- Good Shear Strength
- Solvent Free
- Converter Friendly
- Excellent for Hand Application
- Superior for Automated Dispensing Applications
- Excellent Adhesion to a Variety of Substrates

Specific tests should be performed by the end user to determine the product suitability for the particular application.
