

## PS-2026

### Product Description:

PS-2026 is a permanent, optically clear acrylic transfer adhesive for use in applications where reliable adhesion without compromising visual characteristics of the adjoining surfaces is required. The adhesive is formulated to work with a variety of substrates including glass, polycarbonate, plastics and metal.

### Construction / Properties:

Property	Value	Test Method
Color	Optically Clear, Colorless	Visual
Width	1000 mm	QSP-726
Adhesive Thickness	0.10 mm	QSP-726
Refractive Index	1.474	--
Haze	0.30%	--
Total Luminous Transmittance	98%	--
Adhesion to Glass	1500 g/25mm	QSP-722
Continuous Use Conditions	-40 to 85 C	WI-8.2-13

### Features

- High Light Transmission
- Good Humidity and UV Resistance
- Excellent Resistance to Yellowing
- Flexible

Specific tests should be performed by the end user to determine the product suitability for the particular application.
