

PS-2320

Product Description:

P-SHIELD® PS-2320 is a nickel copper plated electrically conductive fabric coated on each side with a black electrically conductive coating.

Construction / Properties:

| Property | Value | Test Method |
|---------------------------|--------------------|-------------|
| Total Thickness | 0.05 mm | QSP-726 |
| Fabric Type | Woven | -- |
| Surface Resistivity | <0.05 Ω /sq | QSP-741 |
| Color | Black | Visual |
| Continuous Use Conditions | -10 – 80 C | WI-8.2-13 |

Features

- Superior Converting Properties
- Excellent Conformability
- Excellent Shielding Effectiveness
- RoHS and HF Compliant

Specific tests should be performed by the end user to determine the product suitability for the particular application.
