

## PS-2208

### Product Description:

PS-2208 is a polytetrafluoroethylene (PTFE) polypropylene laminated porous membrane designed supported with a black nylon to allow for good air transmission through the membrane while repelling water and contaminants.

### Construction / Properties:

Property	Value	Test Method
Total Thickness	0.2 mm	QSP-726
Nominal Pore Size	0.45 $\mu\text{m}$	--
Air Permeability at 0.5" w.g.	0.45 cfm	--
Water Entry Pressure	>100 psi	--
Color	Black	Visual

### Features

- Good Converting Properties
- Excellent Breathability
- Waterproof

Specific tests should be performed by the end user to determine the product suitability for the particular application.
