

## PS-0301

### Product Description:

PS-0301 is a black light blocking polyester film which has been coated on each side with a high performance acrylic adhesive. The construction utilizes an embossed surface on one size to reduce the entrapment of air during application.

### Construction / Properties:

| Property                      | Value                                      | Test Method |
|-------------------------------|--|-------------|
| Color                         | Black                                      | --          |
| Total Thickness               | 0.030 mm ± 0.006 mm                        | QSP-726     |
| Adhesive Peel Strength to SUS | >700 g/25mm at 25 C<br>>600 g/25mm at 85 C | QSP-722     |
| Continuous Use Conditions     | -10 to 80 C                                | WI-8.2-13   |

### Features

- Excellent Adhesion
- Good Flexibility
- Excellent Adhesion to a Variety of Substrates

Specific tests should be performed by the end user to determine the product suitability for the particular application.
