

PS-2345

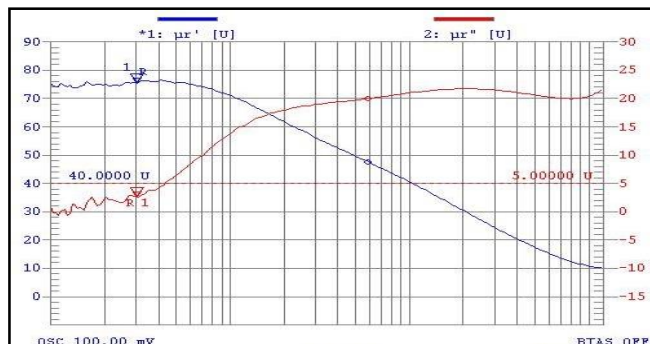

Product Description:

P-SHIELD® PS-2345 is a tape designed as protection from interference as a result of low frequency magnetic fields. A pressure sensitive adhesive tape can be added to allow for application to various surface types found in mobile communication devices, personal and handheld computers and other sensitive electronic devices.

Construction / Properties:

Property	Value	Test Method
Absorber Thickness (no adhesive)	0.10mm, 0.30mm	QSP-726
Adhesive Thickness	0.01mm	QSP-726
Thickness Tolerance	± 0.05mm	
Color	Gray	Visual
Applicable frequency	100MHz to 3GHz	--
Permeability at 3MHz	70	--
Continuous Use Conditions	-25 – 80 C	WI-8.2-13

Permeability at 3MHz

Specific tests should be performed by the end user to determine the product suitability for the particular application.
