

PS-2358

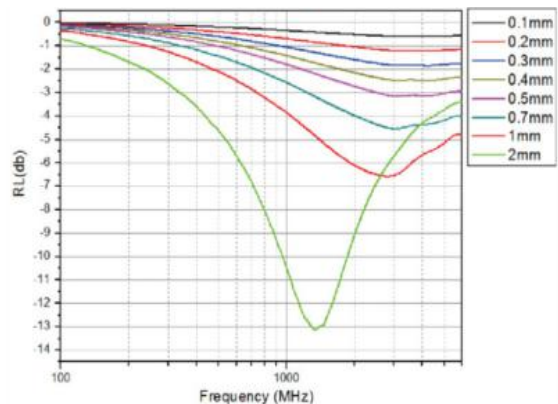

Product Description:

P-SHIELD® PS-2358 is designed for protection from interference as a result of low frequency magnetic fields. PS-2358 can be used in mobile communication devices, personal and handheld computers and other sensitive electronic devices.

Construction / Properties:

Property	Value	Test Method
Absorber Thickness (no adhesive)	0.30mm	QSP-726
Thickness Tolerance	± 0.03mm	
Color	Gray	Visual
Applicable frequency	10 MHz to 10GHz	--
Permeability at 1MHz	50	--
Sheet Resistance	1000 Ohm	--
Continuous Use Conditions	-40 – 120 C	WI-8.2-13

Permeability at 1MHz

Specific tests should be performed by the end user to determine the product suitability for the particular application.
