

PS-2402

Product Description:

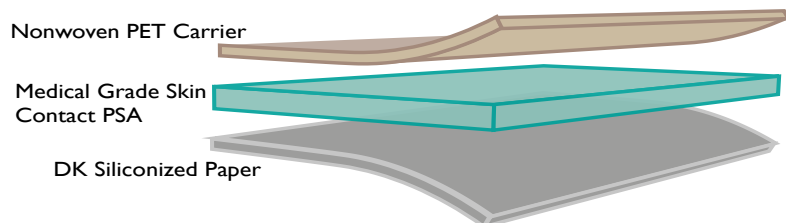

P-DERM® PS-2402 is a high adhesion, non-irritating skin contact PSA that has been developed for higher adhesion long term wear applications where consistent and predictable performance is desired. The copolymer blend PSA has been tested for cytotoxicity and irritation for use in direct skin contact applications.

Construction / Properties:

Property	Value	Test Method
Total Thickness	0.09 mm	QSP-726
Usable Width	725 mm	QSP-726
Face	1.3 oz/yd ² Nonwoven PET	--
Release Liner (Skin Side)	Dense Kraft Siliconized Paper Liner	--
Color	Colorless	--
Adhesion	>3500 g/25mm	QSP-722
Biocompatibility	Cytotoxicity: Pass Primary Dermal: Pass	ISO 10993
Continuous Use Range	-10 - 80 C	--

Features:

- Excellent Instantaneous Tack
- Hypoallergenic
- Excellent Converting Properties
- Excellent Resistance to Heat and Humidity
- Excellent Adhesion to Low Surface and Energy Substrates

Specific tests should be performed by the end user to determine the product stability for the particular application.
